Experience

General Assembly · Web Development Immersive

Aug 2017 to Nov 2017

A 12 week, 600+ hour intensive training in web development. Created 3 full stack web applications and 1 front end application; focus placed on writing semantic code with industry best practices and version control. Developers create full stack web apps individually as well as in a group using AGILE workflow.

Projects

List-it: The apartment listing app!

List-it is a streamlined apartment listing app which allows users to browse apartment listings and pictures. Users can create an account and post their own listing to be viewed by other members. Ember.js was used as the front-end framework to work with a Ruby on Rails Restful API. Other technologies include Imgur API, bootstrap, and PostgreSQL.

Nozama.com

E-commerce site which allows users to view Nozama's products, add products to their shopping cart, purchase, and check their previous order history. The purchase feature uses custom Stripe integration to allow secure purchasing and handling of credit card information.

Created using: HTML, CSS, JQUERY, Bootstrap, HANDLEBARS, Node.js, Express, Mongoose, and MongoDB.

Wine Cellar

A full-stack web app which allows authenticated users to store bottles of wine in a virtual cellar. Users can enter in key descriptive tracking information about each bottle (e.g., vintage) and store and edit the information as needed.

Created using: HTML, SASS, JQUERY, Bootstrap, HANDLEBARS, Ruby On Rails, PostgreSQL.

Third party API is used to provide search function so user can research their wines.

Tic-Tac-Toe

Front end web client which recreates the well known game.

Created using: HTML, CSS, JQUERY, Bootstrap.

Employment

The Ivy Team / Keller Williams Realty · Realtor

Boston, MA · 2012 to 2017

Member of the top sales and rental team (by sales volume and units closed) in Boston's West End.

Consistently in the top 3 position for rental volume in the KW Boston-Metro office.

- Oversee all aspects of rental process for expansive portfolio of high end rental listings and clients.
- Negotiate for both rental client and landlord interests in highly competitive and sophisticated real estate market.
- Maintain, expand and nurture a professional network including mortgage brokers, contractors, attorneys and other business professionals related to real estate and apartment rentals & sales.
- Handle routine negotiations and conflict resolution to achieve win-win results among parties.
