Projects

List-it: The apartment listing app!
Streamlined apartment listing app - https://stgeorge3.github.io/project-4-listit-client/
- Allows users to browse apartment listings and pictures.
- Users can create an account and post their own listing to be viewed by other members.
- Technologies used: Ember.js and Ruby on Rails, Imgur API, bootstrap, and PostgreSQL.

Nozama.com
E-commerce site - https://ga-programmers.github.io/project-3-ecommerce-client/
- Users can view Nozama's products, add products to their shopping cart, purchase, and check their previous order history.
- The purchase feature uses custom Stripe integration to allow secure purchasing and handling of credit card information.
- Technologies used: HTML, CSS, JQUERY, Bootstrap, HANDLEBARS, Node.js, Express, Mongoose, and MongoDB, Stripe.

Wine Cellar
A full-stack web app - https://stgeorge3.github.io/project-2-wine-client/
- Users store bottles of wine in a virtual cellar.
- Users can enter in key descriptive tracking information about each bottle (e.g., vintage) and store/edit the information as needed.
- Third party API is used to provide search function so user can research their wines with the click of a button.
- Technologies used: HTML, SASS, JQUERY, Bootstrap, HANDLEBARS, Ruby On Rails, PostgreSQL.

Tic-Tac-Toe
Front end web client - https://stgeorge3.github.io/project-1-main/
- Users can log in and play the well know game.
- Users can track the games they have won.
- Technologies used: HTML, CSS, JQUERY, Bootstrap.

Recent Experience

General Assembly · Web Development Immersive
Aug 2017 to Nov 2017

A 12 week, 600+ hour intensive training in web development.
- Created 3 full stack web applications and 1 front end application
- Focus placed on writing semantic code with industry best practices and version control.
- Worked individually and in groups using AGILE workflow.

The Ivy Team / Keller Williams Realty · Realtor
2012 to 2017

Member of the top sales and rental team (by sales volume and units closed) in Boston's West End. Consistently in the top 3 position for rental volume in the KW Boston-Metro office.
- Oversaw all aspects of rental process for expansive portfolio of high end rental listings and clients.
- Negotiated for both rental client and landlord interests in highly competitive and sophisticated real estate market.
- Maintained, expanded and nurtured a professional network including mortgage brokers, contractors, attorneys and other business professionals related to real estate and apartment rentals & sales.
- Handled negotiations and conflict resolution to achieve win-win results among parties.

Hamilton Mundy Corporation · Research assistant
2008 to 2012

Performed in-depth property research on commercial real estate.

Education

University of New Hampshire
BA Psychology 2012

Sorbonne University
2010
A year-long program studying French language and literature.
